

Oceana released the results of a nationwide poll finding that Americans **overwhelmingly support** policies to **end illegal fishing** and seafood fraud.

89%

of American voters agree that imported seafood should be held to the same standards as U.S. caught seafood.

81%

of American voters say they support policies that prevent seafood from being sold in the U.S. that was caught using human trafficking and slave labor.

83%

of American voters agree that all seafood should be traceable from the fishing boat to the dinner plate.

77%

of American voters support requirements for all fishing vessels to be publicly trackable.
