OCEANA’S PROPOSED SOLUTIONS

REQUIRE
- Governments require all commercial fishing vessels flying their flag or operating within their national waters to carry and continually broadcast publicly accessible, tamper-resistant AIS.
- All regional fisheries management organizations require AIS usage by any commercial vessel operating in their territories.

ENFORCE
Flag states and coastal states enforce existing AIS requirements.

NOTIFY
Require vessel owners to notify the flag state and/or coastal state when and why their fishing vessel operator stops transmitting AIS.

Oceana works to help stop illegal fishing, advocate for transparency at sea, and require traceability of all seafood.
