

WHERE IS AIS REQUIRED?

The International Maritime Organization requires large vessels to carry AIS. **However, governments can decide** if – and to what extent – these requirements apply to fishing vessels

65'/20m

The United States requires its fishing vessels over 65 feet long, or about 20 meters, to have AIS.

49'/15m

The European Union requires its fishing vessels over 15 meters, or about 49 feet long, to have AIS.
