

# OCEANA'S

## PROPOSED SOLUTIONS

### REQUIRE

- **Governments** require **all commercial fishing** vessels flying their flag or operating within their national waters to carry and continually broadcast publicly accessible, tamper-resistant AIS.
- All **regional fisheries management organizations** require AIS usage by any commercial vessel operating in their territories.

### ENFORCE

**Flag states** and coastal states **enforce existing AIS requirements.**

**Flag State:** The country under which a vessel is registered

### NOTIFY

Require vessel owners to **notify the flag state and/or coastal state** when and why their fishing vessel operator stops transmitting AIS.

Oceana works to **help stop illegal fishing**, advocate for **transparency at sea**, and require traceability of all seafood.
